Market Trends

The BRVM ended this week up, with 158.10 points for the BRVM 10 index (+0.82%) and 167.64 points for the BRVM Composite index (+0.25%). The capitalization of the equity market stood at 4 715 billion francs CFA. The equity market transactions amounted to 2.8 billion francs CFA at the end of the week, mainly driven by « Public Services » (58%), « Distribution » (21%) and « Finances » (16%) sectors. SICABLE CI stock recorded the largest growth this week with a gain of 15.58%, while SETAO CI stock shown the largest decline with a lost of 11.76%. On the commodities market, crude oil and cocoa prices (in New York) ended the week with a significant increase (respectively +5.90% and +6.77%) while the price of rubber finished the week down (-4.76%).

The Chief Economist's Analysis [a focus on TOTAL CI]

The increase in petroleum product prices and volumes sold contributed to an improved performance of Total CI in the third quarter of 2018. Thus, the company recorded a turnover (excluding tax) of a value of 312 932 million FCFA and a net result amounting to 9 788 million at the end of September 2018, up respectively by 18.6% and 48.5% compared to the same period in 2017. On the stock market, Total CI stock recorded a capital loss of 51% in 2018, despite a higher return per share (it rose to 6.12% in 2018 compared to 3.23% in 2017 at the date of dividends payment). This depreciation of the stock could be partly explained by the lack of communication from the company on its results for a good part of the year. In 2019, after a month and a half, the evolution of the stock price can be considered as globally bearish: the stock closed the week at 1,280 FCFA against 1,355 FCFA at the beginning of the year. Financial year 2018 results are expected to be better than those of 2017, given the evolution of sales and a relatively higher average petroleum product price. In this perspective, the level of dividends to be distributed in 2019 could see an improvement, as the share price.

News BRVM Corporates

❑ **[SMB CI]:** Société Multinationale de Bitumes will divide its shares on Monday, February 25, 2019. The splitting ratio is four (04) new shares for one (01) old share.

❑ **[BMPA]:** During his working visit this Wednesday, February 13, 2019 to the BRVM, the ivorian Minister of Agriculture and Rural Development announced the establishment of a Agricultural Commodities Exchange (BMPA) in Ivory Coast. BMPA, whose start of operationalization is scheduled for July 2020, has several objectives, including funding and fluidity of information within the agricultural sector. A training program for agricultural market ecosystem actors has been implemented since 5 February 2019 and will involve around a thousand people from the public and private sectors. The BMPA should start with three speculations, namely cashew nut, corn and kola nut.

❑ **[BOLLORE TRANSPORT & LOGISTICS]:** According to a press release, COSCO Shipping Lines and Bolloré Transport & Logistics have signed o a strategic Memorandum of Understanding in Shanghai. Through this agreement, the two companies have agreed to explore the possibilities of commercial collaboration in order to develop their respective activities and satisfy the needs of their customers, particularly in terms of digitalization. Bolloré Transport & Logistics and COSCO Shipping Lines share the common ambition to intensify international flows, particularly on the African continent.

Market News

❑ **[COTE D'IVOIRE]:** According to some news agencies, during the first week of February 2019, the Coffee-Cocoa Council, the regulator of the cocoa sector in Côte d'Ivoire, has sold 400 000 tonnes of cocoa (about one-fifth of the annual harvest) directly to international trading, like Ghana, thus refraining from using its forward selling system. This initiative seems to confirm the decision of Côte d'Ivoire, as part of their cooperation, to modify its marketing system to migrate to that of Ghana. It could be reiterated during the next cocoa season.

❑ **[DJIBOUTI - ETHIOPIA]:** According to the Djibouti Information Agency, the Djiboutian Minister of Energy, in charge of Natural Resources, and the Ethiopian Minister of Mines and Petroleum have signed in Addis Ababa (in Ethiopia) an agreement on the construction of a gas pipeline for the export of Ethiopian gas via the ports of Djibouti. The agreement signed by both parties provides for the construction in two years, starting in 2019, of two infrastructures: a 767-km long pipeline (including 700 km in Ethiopia and 67 km in Djibouti) for the transport of Ethiopian natural gas and a liquefaction plant in Damerjog (in Djibouti). An envelope of 4 billion \$ will be mobilized for the implementation of this vast project, on which the two countries are particularly counting on, given the immense opportunities that accompany it, particularly in terms of job creation. This project will also provide Djibouti with the opportunity to meet the challenge of energy costs and thus lay the foundations for sustainable development.
