The capitalization of the equity market stood at 4 915 billion francs CFA. The equity market transactions amounted to 792 million francs CFA at the end of the week, mainly driven by « Public Services » (54%) and « Finances » (27%) sectors. Bank Of Africa SN stock recorded the largest growth this week with a gain of 13.94%, while CROWN SIEM CI stock showed the largest decline with a loss of 13.33%. On the commodities market, cocoa prices continued to rise, (+5.64% in New York and +4.52% in London), as did the price of crude oil (+5.10%).

The Chief Economist's Analysis [a focus on FILTISAC CI]

At the end of the third quarter of 2018, FILTISAC achieved a turnover of 26 422 million FCFA, down by 5% compared to the same period in 2017. The company's pre-tax profit also dropped to 329 million FCFA, compared to 1,132 million FCFA at the end of September 2017. The company justifies the 71% drop in the pre-tax profit by lower sales, the higher cost of its raw materials, the constitution of exceptional provisions (409 million FCFA) as well as the contraction of the financial result. At the end of the 2018 financial year, turnover should have benefited from the opening of the 2018/2019 coffee and cocoa campaign. However, the company could have recorded 2018 net income below the level reached in 2017. On the stock market, after recording one of the largest market impairment losses in 2018 (-56,95%), the FILTISAC share continues to depreciate. Indeed, the share price has decreased from 2,120 FCFA at the beginning of the year 2019 to 1,215 FCFA at the end of the session of 05 April 2019, a decline of 42.69% in less than four months. However, the weakness of the current share price could lead to a reversal of the trend after the publication of the company's 2018 annual results if the announced dividend per share does not deviate enormously from the one distributed last year.

News BRVM Corporates

□ **[BRVM 10]:** After the quarterly revision of the stock market indices, the composition of the BRVM 10 index recorded four new outings as many entries. □ **[ONATEL]:** The telephone company Onatel in Burkina Faso published its results for financial year 2018. The turnover stood at 159,027 million FCFA, down by 2.3% compared the previous financial year. The net result came to 31,814 million FCFA, up by 12.5%. The company has called a General Meeting for Thursday, April 18th 2018. The decision to distribute a net dividend of 409.36 FCFA per share should be ratified.

□ **[BOA BENIN]:** The Benin subsidiary of the Bank Of Africa banking group published its results for financial year 2018. Despite a Net Banking Income down to 39 386 million FCFA (-7% compared to 2017), the net result recorded a slight increase to 12,724 million FCFA (+ 2%).

□ **[SOLIBRA]:** The Company of Lemonades and Breweries of Africa (SOLIBRA) achieved at the end of the financial year 2018 a turnover of 202 816 million FCFA, up by 4.9% compared to the previous exercise. Market News

□ **[CÔTE D'IVOIRE]:** As part of the implementation of the financial sector development strategy, the Ivorian Government has decided to set up a financial ecosystem dedicated to certain sectors of activity such as agriculture, industry and consumption. These include the creation of an investment fund for the financing of structuring projects in both private and public areas and the creation of several banks financing the activities of the agricultural and industrial sectors. These large financial institution projects aim to offer economic actors in general and more specifically those in rural areas, a range of proximity financial services that consider the operating cycles and constraints of each sector. The Government of Côte d'Ivoire has instructed all the Ministers concerned to take appropriate measures to initiate feasibility studies and to seek out strategic investors or shareholders who can effectively support the setting up of these new financial institutions.

□ **[DJIBOUTI]:** According to a recent report from the World Bank, the growth of Djibouti's small economy is resuming acceleration. After 4.1% in 2017 and 6% in 2018, real GDP is expected to increase by 7% in 2019. Growth will be driven by export of transportation and logistics services supported by the newly commissioned trade infrastructure. Growth in the industrial sector will also remain strong as the nascent import- substitution manufacturing industry develops. The medium-term economic outlook is positive, as the Government's strategy of positioning the country as a regional trade, logistics, and digital hub gains traction. GDP growth is expected to accelerate to 8% over the 2020-2023 period.
