## The Chief Economist's Analysis [a focus on UNIWAX CI]

*The growth dynamic of the loincloth market in Ivory Coast had good prospects for Uniwax as Wax leader in West Africa, with sales increasing between 2012 and 2015. However, turnover contracted in 2016 (-5.7% compared to 2015) and in the first half of 2017 (-3.6% compared to the first half of 2016). These declines could be explained by the overuse of production lines that would have resulted in technical incidents. Investments have been undertaken by Uniwax to remedy this situation, negatively impacting its profits in a context of sluggish activity. Although an improvement could be felt in the annual turnover of 2017 thanks to the investments initiated, a positive growth of the net result would not be at the rendezvous. Thus, the dividends to be distributed for the year 2017 could suffer from this performance. These developments seem to have already been incorporated by investors in the light of the evolution of the Uniwax CI share price on the BRVM. The share recorded a capital loss of 19.43% in 2017, in the first 4 months of 2018, the share price has continued a downward trend to stand at 3,200 FCFA this week (-25,06 % compared to end of December 2017). Uniwax could regain investor confidence with better communication of its strategy, despite strong potential for its activity both in the local market and internationally.*

It shows an improvement in its turnover of 5.8% to 90 billion FCFA. Net result also increased from 10.1 billion FCFA in 2016 to 13.1 billion FCFA in 2017. The company plans to distribute about 76.6% of its profits to its shareholders, a gross dividend per share of 185 FCFA.

❑ **[ONATEL]:** Burkina Faso's mobile phone company Onatel has announced two crossing thresholds. These transactions are the result of the acquisition by Maroc Telecom of 10% of the company's capital held, previously held by the State of Burkina Faso, for 8,000 FCFA per share. This transaction reflects Maroc Telecom's desire to consolidate its presence in the company. Thus, in new structuring of the capital Maroc Telecom holds 61% of the capital against 16% for the Burkinabe State.

❑ **[SGBCI]:** *Societe Generale de Banque en Côte d'Ivoire* has formed a partnership with the Ivorian subsidiary of the BIA group, specializing in the supply of machinery for mining, quarry, forestry and construction projects. ### Market News

❑ **[SUB-SAHARAN AFRICA]:** Economic activity continues to strengthen in Sub-Saharan Africa, supported by favorable external and domestic conditions, says the World Bank's *Africa's Pulse* report. According to estimates, the economic growth rate rebounded to 2.6% in 2017, after 1.5%, in 2016, rising oil and metals production, encouraged by recovering commodity prices, and improving agricultural conditions following droughts. Regional growth is expected to rise to 3.1 percent in 2018 and stand at 3.5 percent in 2019. While Nigeria, South Africa, and Angola are expected to see a gradual pick-up in growth, economic expansion will continue at a solid pace in the WAEMU, and strengthen in most of East Africa. The recovery in some oil exporters in the CEMAC will be slower than previously expected. The level of public debt in Sub-Saharan Africa has been steadily increasing since 2013, when it stood at an average of 37% of GDP compared to 56% of GDP at the end of 2016. The risks to debt sustainability have increased significantly : 14 countries were at high risk of debt distress at the end of 2017, against from 7 in 2012.

❑ **[BURKINA FASO]:** With cotton production expected at 611 000 tonnes this campaign, below the target of 650 000 tonnes, the government of Burkina Faso has decided to inject 14.6 billion FCFA into the cotton sector. As a reminder, Burkina Faso lost its position as Africa's leading producer in favor of Mali during the 2017/18 campaign. This financial support is intended to support the inputs price for the 2018/19 campaign and the restoration of the solvency of the operators.
