## The Chief Economist's Analysis [a focus on TRACTAFRIC CI]

*TRACTAFRIC MOTORS CI ended 2019 with a net profit down 11.4% compared to the end of 2018 due to an increase in expenses over the period, mainly external services. TRACTAFRIC's turnover increased from CFAF 13,258.1 million on March 31, 2019 to CFAF 13,926.5 million (+ 5%) in the same period in 2020. This increase is justified by the increase of 28 % of the company's rental activity. As for the company's net profit, it stood at CFAF 408.8 million; it is practically like that of the previous year, namely CFAF 409.4 million. On the stock market, the TRACTAFRIC share is not the subject of many exchanges (the average transaction since January 2 is 1.37), it starts in 2020 at the price of CFAF 2,695 and then trades at more than CFAF 3,000 over the period from February 6 to March 9, 2020. At the end of the session on May 29, the stock value is CFAF 3,000 (+ 11.3% compared to the start of year). The company plans to strengthen its market share and develop its activity over the rest of the year, but its future performance could be constrained by the health crisis.*

### Market News

❑ **[BURKINA FASO]:** The Paris Club suspended debt servicing of Burkina Faso to its member creditors between May 1 and December 1, 2020. This moratorium should help the country to cope economically with the consequences of the COVID-19 pandemic. The budgetary space thus created should make it possible to increase social, health or economic spending.

❑ **[COTE D'IVOIRE]:** The Ivorian government has ratified two West African Development Bank (BOAD) financing agreements totaling CFAF 35 billion. This loan should enable the country to finance the strengthening of the drinking water supply system of the economic capital and the rehabilitation of the airports of Bouaké and Korhogo.

❑ **[AFRICA]:** The Africa Regional Integration Index 2019 reveals that the continent is poorly integrated with an average score of 0.327. The weakest dimensions are productive integration (0.20) due to the insufficient production of intermediate goods on the African continent and the lack of complementarity of traded goods; and the infrastructure (0.22) deemed inadequate by both air and land. South Africa appears to be the most integrated country on a continental scale, with a score of 0.625.
