The Chief Economist's Analysis [a focus on BOLLORE]

Bolloré Transport & Logistics Côte d'Ivoire ended the year 2016 with an increase in its main financial indicators. Between 2015 and 2016, the company's turnover and net profit rose by 2.48% and 38.13% respectively. The higher net profit increase is essentially due to the provisions reversal made by the company. For the first quarter of 2017, the company shows a positive trend in its indicators. Its turnover stands at 25.007 billion FCFA, up by 6% compared with the end of March 2016. Net profit rises by 48% to 2.269 billion FCFA at the end of March 2017. The company explains this result by the good performance of its main businesses (Handling and Maritime), coupled with a gain in productivity in all of its businesses. On the stock market, the Bollore share price showed a downward trend (-28%) between the end of December 2016 and the end of April 2017. This decline could be related to the investors perception of certain events that could have an impact on the company's transport activity, in particular the social rumbling in the country and the crisis in the cocoa sector at the beginning of the year. Thereafter, the stock began a timid upward trend, which would be linked to the publication in April of the annual and quarterly (positive) results. The outlook for 2017 is positive, with better weather conditions, favorable to the activities and dynamism of the Ivorian economy.

News BRVM Corporates

❑ [SAPH]: Michelin tire manufacturer and the agroindustrial group SIFCA launch a friendly takeover bid for *Société Internationale de Plantations d'hévéas* (SIPH), listed on the Paris Stock Exchange and whose SAPH is a subsidiary. The objective of this operation is to enable *Compagnie Financière Michelin* and SIFCA to consolidate their ties and to strengthen their shareholdings in SIPH because of the importance of West African production in world rubber production and in a context of increased competition between the players in these markets. The shares will be bought back at 85 euros per share, against a closing price of 59.95 euros of Monday 5 June 2017, representing a capital gain of 41.8%. Before this transaction, Michelin and SIFCA held 23.8% and 55.6% of SIPH respectively. If the takeover bid materializes, Michelin plans to withdraw SIPH from the stock exchange.

❑ [BANK OF AFRICA GROUP]: The Beninese, Ivorian and Nigerian subsidiaries of the Bank of Africa Group (BOA) will proceed with capital increases. Thus, BOA Benin will increase its capital to 20 145 360 000 FCFA by incorporating share premiums and issue of free shares; BOA Côte d'Ivoire will raise its capital to 20 000 000 000 FCFA by incorporating issue premiums and free reserves and issue of free shares; BOA Niger will increase its capital to 13 000 000 000 FCFA through the incorporation of share premiums and the issue of bonus shares.

Market News

❑[AFRICA]: According to the 2017 report on world investment of the United Nations Conference on Trade and Development (UNCTAD), FDI flows in 2016 have decreased by 2% compared to 2015 to stand at 1,750 billion \$ due to the weak growth of the global economy and the increase in political risks perceived by multinational enterprises. In Africa, FDI flows reached 59 billion \$ (3.4% of world FDI flows), down by 3% from 2015, reflecting mainly the weakness of commodity prices . The main African countries which received FDI are: Angola with 14.4 billion \$ (-11.2%), Egypt with 8.1 billion \$ (+ 17.1%), Nigeria with 4.4 billion \$ (+ 45.2%), Ghana with 3.5 billion \$ (+ 9.2%) and Ethiopia with 3.2 billion \$ (+ 45.8%). In 2017, FDI flows to Africa are expected to increase to 65 billion \$, in line with a slight increase in oil prices and progress in regional integration.

❑[WAEMU]: According to a statement from the Monetary Policy Committee of the Central Bank of West African States (BCEAO) , economic growth in the Union is expected to reach 6.9% in 2017, after 6.7% in 2016.
