Market Trends

The BRVM ended this week down, with 150.67 points for the BRVM 10 index (-1.29%) and 157.79 points for the BRVM Composite index (-0.64%). The capitalization of the equity market stood at 4 699 billion francs CFA. The equity market transactions amounted to 2 299 million francs CFA at the end of the week, mainly driven by « Public Services » (73%) and « Finances » (18%) sectors. NEI CEDA CI stock recorded the largest growth this week with a gain of 13.46%, while BOLLORE AFRICA LOGISTICS CI stock showed the largest decline with a loss of 10.83%. On the commodities market, the price of coffee in the US market rose significantly in one week (+ 9.39%) while the price of palm oil fell significantly this week (-7.11 %).

The Chief Economist's Analysis **[a focus on CFAO MOTORS CI]**

The successful start-up of the VL, PR, 2-wheel and autopart activities enabled CFAO MOTORS CI to achieve a turnover of 26 billion FCFA at the end of the first quarter of 2019, representing a growth of 2.28% compared to in the first quarter of 2018. However, by standing at 1.56 FCFA billion at the end of March 2019, net result was down by 27.41% over the same period, mainly due to the lower operating income (-23.73%). The company explains the decrease in operating income by the sale in June 2018 of the "Ascensorie" business, a source of revenue and especially of margin. On the stock market, in 2019, CFAO CI lost 28.91% of its value in the first month of the year. He rebounded on the first week of February, before finally following a general downward trend. At the end of the June 28th session, the CFAO CI share traded at 445 FCFA, a loss of 30.47% compared to the beginning of the year. This significant depreciation recorded in the first half of 2019 could be explained mainly by the fact that the payment of the dividends relating to the 2018 financial year as not yet been made, whereas it was planned for June 25, 2019. The growth of vehicle sales in the Ivorian market observed since 2017 is expected to continue in 2019, reinforced by the entry into force in 2018 of the decree limiting the age of second-hand vehicles imported into Côte d'Ivoire; which is a good omen for CFAO MOTORS CI. However, the evolution of its share price will depend on its dividend distribution policy.

News BRVM Corporates

❑ **[NEI-CEDA]:** The Ivorian publishing house, NEI- CEDA, has performed well for the 2018 financial year in view of the results published on the market. Thus, it shows a turnover up by 35% to 8 106 million Francs CFA at the end of 2018. Its net result went from 505 million Francs CFA in 2017 to 774 million Francs CFA in 2018, an increase of 53%.

❑ **[SOGB]:** *Société des Caoutchoucs de Grand-Béréby* (SOGB) will pay on July 15 2019 its annual dividend of 126 Francs CFA net per share for the 2018 financial year.

❑ **[UNIWAX]:** The textile company, UNIWAX, will pay on 11 July 2019 its annual dividend of 181.80 Francs CFA net per share for the 2018 financial year.

❑ **[NSIA BANQUE CI]:** *NSIA BANQUE COTE D'IVOIRE* (NSIA BANQUE CII) will pay on 9 July 2019 its annual dividend of 194.2 Francs CFA net per share for the 2018 financial year.

❑ **[FILTISAC CI]:** The FILTISAC company will pay on 31 July 2019 its annual dividend of 110 Francs CFA net per share for the 2018 financial year.

Market News

❑ **[AFRICA]:** Rules of origin (criteria for determining the nationality of a product) will be a determining factor in achieving the objectives of the African Continental Free Trade Area (AfCTFA), according to a recent report of the United Nations Conference on Trade and Development (UNCTAD). Intra-African trade (average of intra-African exports and imports) accounted for about 15.2% of the total value of Africa's trade during the period 2015-2017, while in America, Asia, Europe and in Oceania, intra-continental trade accounted for 47%, 61%, 67% and 7% respectively of their total trade. The ZLECAf could thus boost intra-African trade as long as the rules of origin are simple, transparent, business friendly and predictable. If the agreement is fully implemented, the gross domestic product of most African countries could increase by 1% to 3% once all tariffs are eliminated.

❑ **[BENIN]:** According to a statement from the IMF, Benin's economic growth rate is estimated at 6.7% in 2018, mainly due to strong port and agricultural activity. The inflation rate averaged 1% in 2018 and the budget deficit narrowed to 4% of GDP. Financial vulnerabilities have nonetheless become more apparent, as the banking sector exhibits relatively low profitability and capital adequacy. The medium-term outlook remains favorable. Growth is projected above 6.5% between 2019 and 2024. However, risks could arise from political discontent following the April 2019 Parliamentary elections; lower-than-expected growth in Nigeria (which would weaken Benin's exports, fiscal position, and activity); and further deterioration of bank profitability.
