### Market Trends

The BRVM ended this week up, with 222.25 points for the BRVM 10 index (+0.16%) and 250.23 points for the BRVM Composite index (+0.43%). The capitalization of the equity market stood at 6 262 billion FCFA. The equity market transactions amounted to 4.5 billion FCFA at the end of the week, mainly driven by Public Services (55%), Agriculture (19%) and Finances (17%) sectors. SICOR CI stock recorded the largest growth for the second week in a row with a gain of 22.91%, while SUCRIVOIRE stock shown the largest decline with a fall of 14.29%. On the commodity market, gold, silver, coffee, cocoa, palm oil, crude oil prices ended this week up.

## The Chief Economist's Analysis [a focus on CFAO CI]

CFAO Motors Côte d'Ivoire ended the financial year 2016 with a turnover of 65.079 billion FCFA and a net profit of 4.094 billion FCFA. These two indicators are down respectively by 13.54% and 11.58% compared to 2015. These regressions are part of a general context of 12% decline in the local vehicle sales market in 2016. In addition, the company specifically explains the decline in its performance by (i) the sale of the Heavy and Pneumatic Goods business in 2015 for 8 billion FCFA and (ii) the capital gain realized in 2015 on this sale. However, the company managed to improve its after-sales service with a growth of 7% in spare parts sales and 12.2% in its workshop business. On the stock market, the CFAO Motors CI share price started the year 2017 with an upward trend (+9.68%) until May 11, 2017, when it began a bearish trend. This trend could be justified by the decline in the company's net result for the year 2016 and the fact that the share appears to be overvalued (on 11 May 2017, the company's PER was 26.63 compared to 20.98 for the average PER of the "Distribution" segment.). On 28 July 2017, the share price stands at 48 995 FCFA, down by 20.98% from its level at the beginning of 2017. The distribution of the SUZUKI brand since April 2017 will certainly strengthen its portfolio. However, the outlook remains stable in a context of strong competition from the vehicle sales market.

### News BRVM Corporates

**□ [CBI]:** The African Development Bank (AfDB) has granted a credit line of 38 million € (approximately 25 billion FCFA) to Coris Bank International (CBI). The loan agreement aims to support CBI's growth dynamic. The funds will be used primarily to finance the medium and long term capital needs of enterprises, mainly SMEs / SMIs in the agro-industry and services (health, education, security) sectors as well as microfinance institutions.

**□ [NSIA BANQUE]:** PROPARCO and NSIA Banque Côte d'Ivoire signed a loan agreement for an amount of 25 million € (about 16.4 billion FCFA). This loan, granted to NSIA Banque, aims to strengthen the bank's long-term means of action vis-à-vis its Corporate and Institutional clients.

### Market News

**□[COTE D'IVOIRE]:** The Government of Côte d'Ivoire has adopted a bill on free zones regime. This bill aims to develop new economic growth poles in Abidjan and other cities in the country, seize the opportunity of relocation of many international export-oriented companies, accelerate the transfer of technology and develop new sectors (assembly, electro mechanics and electronics).

**□[GHANA]:** The Monetary Policy Committee of the central bank of Ghana has decided to reduce its Monetary Policy Rate by 150 basis points to 21%. According to the Governor of the Bank of Ghana, this decision is based on the positive outlook of the Ghanaian economy. Indeed, it continues to improve, mainly supported by a rebound in crude oil production. Similarly, the disinflation process (13.0% in April, 12.6% in May and 12.1% in June 2017) is expected to continue until the end of the third quarter of 2017. This is the third reduction in the Monetary Policy Rate since 2017, resulting in a cumulative reduction of 450 basis points since the beginning of the year.

**□[AFRICA]:** The latest evaluation of public policies and institutions in Africa carried out by the World Bank on 38 countries highlights a decline in the quality of policies and institutions in sub-Saharan Africa in a context of challenging global economic conditions and difficulties inherent in each country. This trend was observed in 40% of the countries assessed in 2016, notably commodity exporters and fragile states. Rwanda again led all countries in the region with a score of 4.0 (out of 6), closely followed by Senegal and Kenya, both with a score of 3.8.
