The equity market transactions amounted to 547 million francs CFA at the end of the week, mainly driven by « Public services » (51%) and « Finance » (34%) sectors. BANK OF AFRICA M stock recorded the largest growth this week with a gain of 10.99%, while TOTAL CI stock showed the largest decline with a lost of 12.34%. ## The Chief Economist's Analysis [a focus on SOCIETE GENERALE CI ]

The SGCI recorded generally satisfactory performance at the end of the first half of 2020 compared to the same period of the previous year: the net banking income increased by 11% to stand at CFAF 79 billion and the establishment's net profit remained almost stable (+ 1%), going from CFAF 23 billion on June 30, 2019 to CFAF 24 billion on June 30, 2020. The increase in SGCI's net banking income would come from the 17% growth of the net margin interest and the 8% increase in commissions. The weak growth in net profit incorporates expectations about the deterioration of the portfolio. These performances reflect the resilience of the SGCI to the first effects of the covid-19 health crisis. On the stock market, the share price surges from the start of 2020 to stand at CFAF 8,700 on March 12 (+ 13% compared to the start of the year). The share price gradually drops thereafter, then rises slightly before reaching CFAF 6,765 at the close of the session on October 9, 2020, a decline of 12% compared to January 2. This generally downward trend is the result of uncertainties linked to the health crisis. The Ivorian socio-political context marked by the holding of the presidential election in a tense environment contributes to reinforce these uncertainties which will weigh on the performance of the bank in the second half of the year.

## Market News

**□ [BURKINA FASO]:** The government of Burkina Faso has ratified an agreement with the World Bank to finance the strengthening of climate resilience in Burkina Faso. **□ [MALI]:** Mali has a 25-member transitional government that is expected to run the country's affairs for 18 months. The priorities of the new government revolve around the fight against terrorism, national reconciliation and the implementation of the so-called Algiers peace accords between the Republic of Mali and the CMA rebel groups.

**□ [SENEGAL]:** Senegal's real Gross Domestic Product (GDP) contracted to 1.3% in the second quarter of 2020, year-on-year.
