Market Trends

The BRVM ended this week down with 203.27 points for the BRVM 10 index (-1.96%) and 221.11 points for the BRVM Composite index (-1.49%). The capitalization of the equity market stood at 5,968 billion FCFA. The equity market transactions amounted to 3.7 billion FCFA at the end of the week, mainly driven by « PUBLIC SERVICES » (48%) and « FINANCES » (31%) sectors. BOA BF stock recorded the largest growth this week with a gain of 17.37%, while PALM CI stock shown the largest decline with a loss of 26.67%. In the commodities market, crude oil prices continued their upward trend and are close to 60 \$ US, while the price of palm oil followed an opposite dynamic and lost 3.6% this week.

The Chief Economist's Analysis [a focus SETAO CI]

« Société d'Etudes et de Travaux pour l'Afrique de l'Ouest » realized in the first half of 2017 a turnover of 2.53 billion FCFA, an increase of 23% compared to the first half of 2016. The company justifies this increase by the launch of a new project in the second half of 2016. Like the turnover, the net result has more than doubled: it amounted to 535.8 million FCFA at the end of June 2017 against 209 million FCFA at the same period last year. For financial year 2017, the company projects a turnover of 4,100 million FCFA, a decrease of 8.6% compared to that of the 2016 financial year. A situation that could be explained by the delay in carrying out many projects and which affects the entire construction sector in Côte d'Ivoire. In the stock market, SETAO CI stock follows a general downward trend: on 24 November 2017, it lost 48.57% of its value compared to the beginning of the year, with a price of 180 FCFA. Furthermore, it should be noted that, currently, the security has the lowest PER of the entire equity market. The company has not distributed a dividend for many years due to the clearance of significant losses recorded before 2011. If the company continues to make profits over the next two years, its shareholders could be rewarded.

News BRVM Corporates

❑ **[SONATEL]:** In a statement released on 22 November 2017, the Sonatel group announced the opening of Sonatel Academy, its coding school that offers a program of free short courses. This initiative reflects the telecommunication group's commitment to the development of the Senegalese digital ecosystem. This school's main mission is to improve the employability of young people and to enable them to master the "e-skills" they need to thrive in the digital economy of the 21st century. Since Monday 13 November 2017, a first class of 50 learners has started the training program and will graduate in June 2018.

❑ **[BANK OF AFRICA]:** BMCE Bank of Africa will issue a subordinated bond of 400 million Moroccan dirham (approximately 24 billion FCFA), with a maturity of 10 years in two tranches, A (fixed interest rate) and B (rate revisable annually). This bond issuance, whose subscription period runs from 28 to 30 November 2017 is reserved for qualified investors under Moroccan law (Undertakings for Collective Investment in Transferable Securities, Financial and Credit Institutions, Insurance and Reinsurance Companies ...). This fundraising will enable BMCE Bank to: (i) strengthen its second-tier complementary capital, (ii) finance its current operations, (iii) finance its international development, and (iv) support its development plan in Morocco as well as in Europe and sub-Saharan Africa.

Market News

❑ **[KENYA]:** According to a statement from the Central Bank of Kenya, despite the effects of the drought experienced in the first half of 2017, and the prolonged elections in the second half of the year, economic growth has remained resilient. The Kenyan economy is expected to grow by 5.1% in 2017, principally supported by the services sector particularly the Micro, Small and Medium Enterprises. The economy is expected to pick up strongly in the medium term supported by a stable macroeconomic environment. Inflationary pressures in the economy were muted, and inflation was expected to continue to decline in the short term. Lastly, a survey conducted by the Central Bank showed private sector optimism in the economic prospects, with the conclusion of the elections, improved weather conditions, and continued public investment in infrastructure.

❑ **[ECOWAS]:** The Economic Community of West African States (ECOWAS) and Tunisia signed a memorandum of understanding to establish a roadmap for strengthening economic cooperation between the two countries parties in the sectors of agriculture, trade and development. According to the Tunisian Minister of Foreign Affairs, this memorandum should eventually lead to the creation of a free trade zone between the two parties. Currently, trade between ECOWAS and Tunisia accounts for about 1% of the global value of trade; a rate that should arise to 10%, according to the Tunisian Minister of Commerce.
