

# Groupe Sonatel

## Financial results H1 2019

## Consolidation scope – General information

- The consolidated financial statements include the accounts of Sonatel and all its directly or indirectly controlled subsidiaries. Subsidiaries are incorporated using the full consolidation method or the equity method of consolidation. Orange Sierra Leone owned at 50% is consolidated using the full consolidation method in accordance with the shareholders' agreement. Orange Services Group "OSG" owned at 47% by Sonatel and its subsidiaries is accounted for in the consolidation scope using the equity method of consolidation as of June 2018.
- Transactions, balances and reciprocal incomes between integrated companies are eliminated.
- The consolidated financial statements are presented in XOF. Assets, liabilities and income statements of subsidiaries out of XOF zone are converted at the exchange rate prevailing at the closing period.
- The Group's consolidated financial statements are prepared in accordance with the West African System of Accounting (SYSCOAHADA), with a revised version effective since January 1, 2018.

## Warning

This presentation contains information which may be deemed as forecasted information.

Free Cash Flow

Good revenue growth (7% or +3.4 points compared to H12018) with a level of transformation in the operating margin of the lower income delta (3 billion out of 37 billion or 8%) due to the reversal of exceptional provisions 4 billion in 2018 and 2.5 billion fiscal adjustment in 2019; without these non-operational items, EBITDA growth would be 3.8%, reflecting a better transformation in the margin of revenue growth.

Evolution of net income impacted by higher depreciation (+ 4.4 billion) and significant financial expenses respectively at consecutive backed investments and bank overdrafts to face the need for cash.

The level of investments reflecting the orientation of strengthening the strategic advantage over very high speed connectivity.

# #2 Highlights

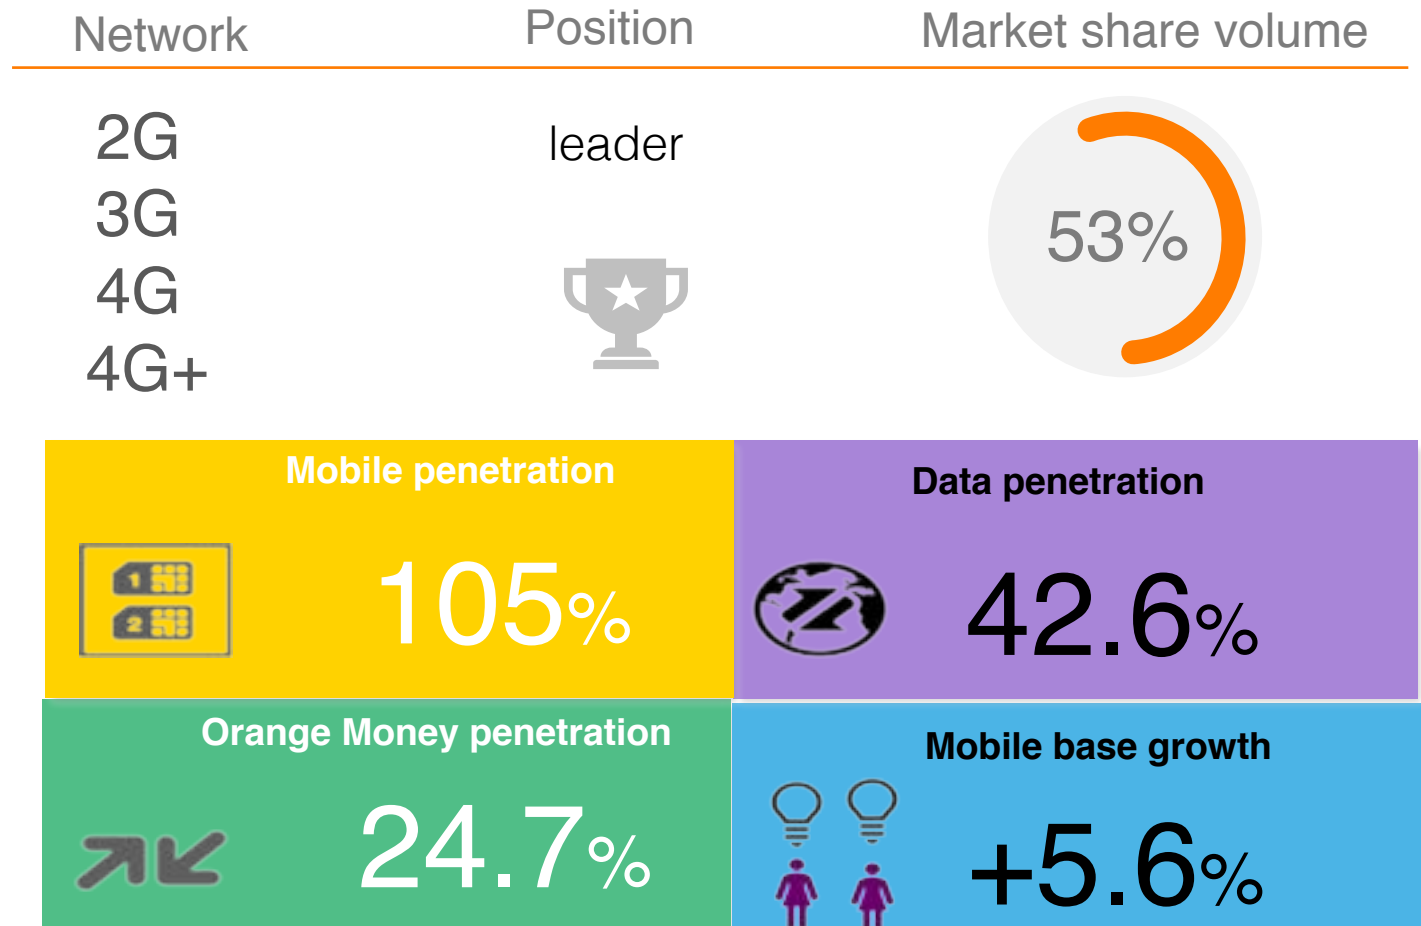

# Senegal

Continued good business momentum reflected by robust revenue growth. Crossing the bar of 2 million monthly users of Orange Money Services and 1 million active 4G customers. Acceleration in the pace of investment deployment / H1 2018. YoY EBITDA growth impacted the increase in indirect costs and the exceptional level of non-operating income in H1 2018.

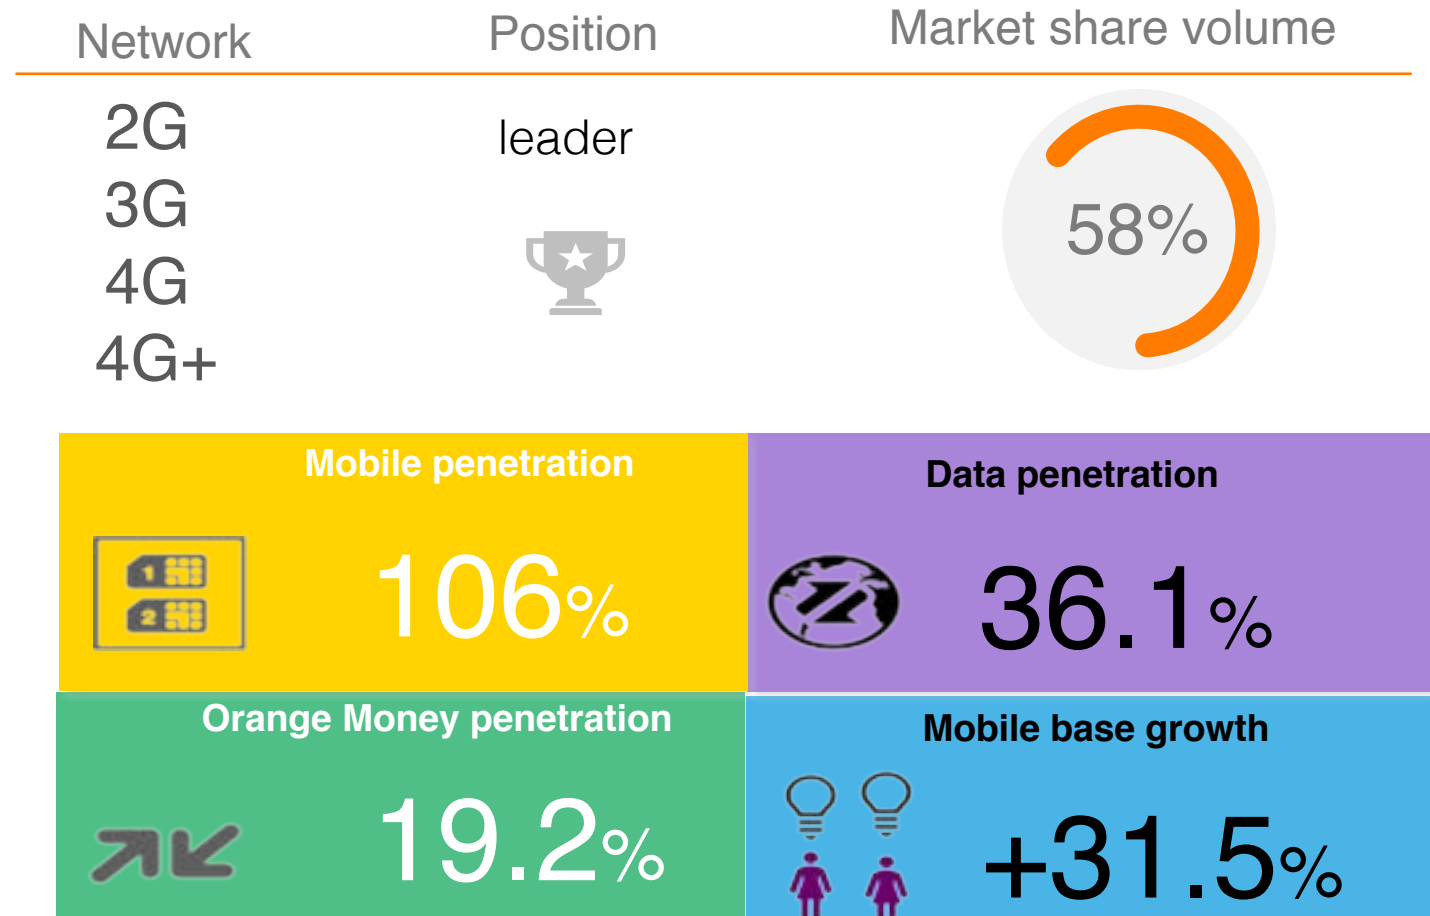

- Re-election of the outgoing President of the Republic for a five-year term
- Strong growth in operational and financial indicators
- Launch of the "SO 'ROC" business project, backed by Sonatel's 2019-2023 strategic plan
- Passing the 2 Million Active Users (30 Days) Orange Money Services Bar
- Improved dynamics fiber deployment
- Confirmation of COPC and QSE certifications
- Decision of the regulator to control the promotions on the mobile retail market (top-up), cancellation of telco bonus offered on the basis of uses Orange Money

**Precarious security situation in the north of the country. Maintaining strong commercial positions in volume. Strong improvement of 3G coverage. Deployment of THD around LTE (4G, TDD) and fiber solutions. Strengthening regulatory and tax pressure.**

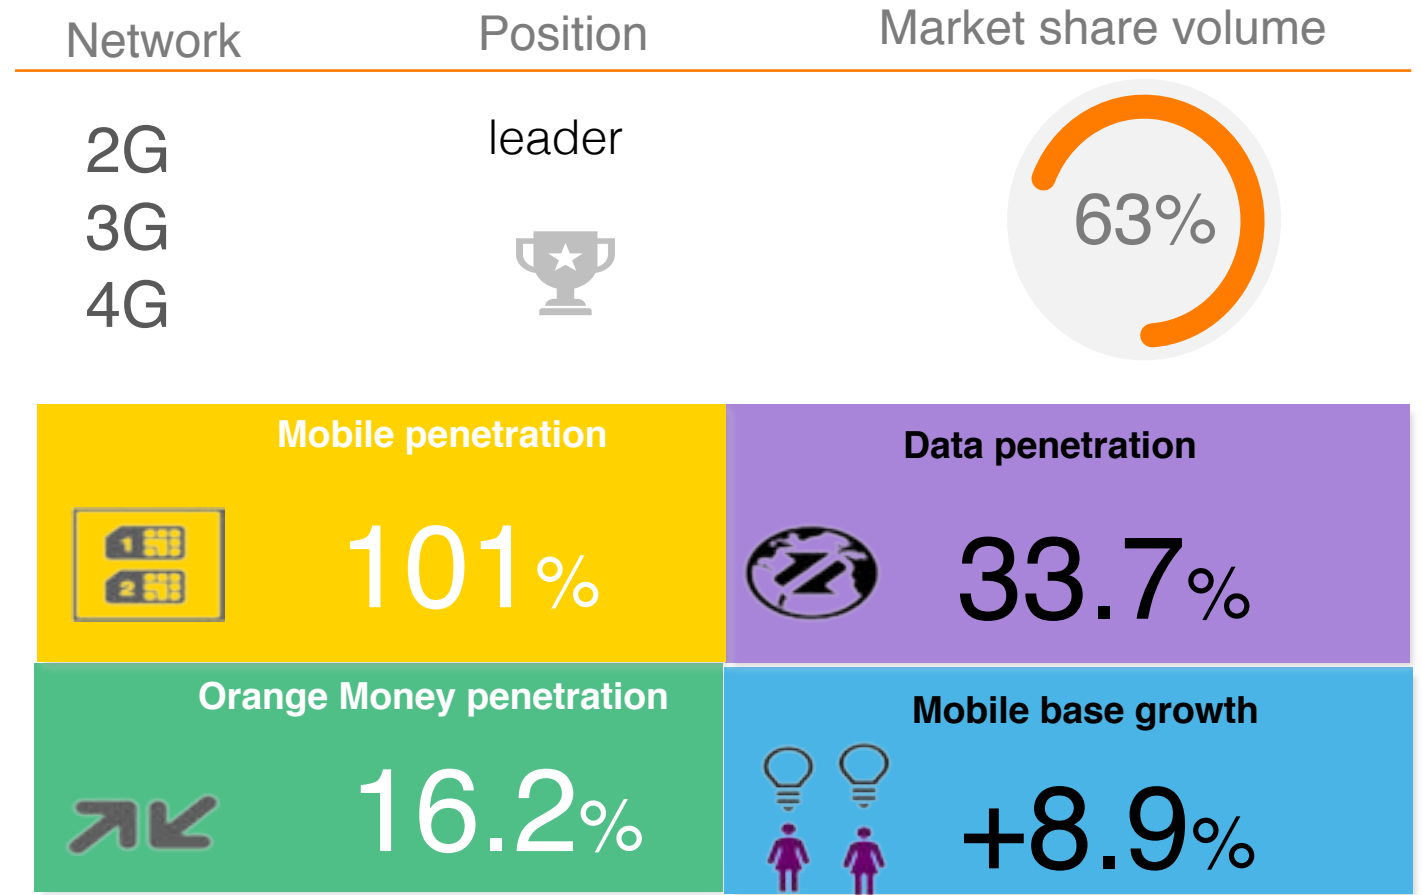

- Degradation of the security situation in central and northern areas
- Legislative elections scheduled for the first half of 2019.
- Market share estimated volume > 56% and value > 65% (AMRTP (regulator) Q4 2018: 63.4% and 67.5%)
- 4G + launched in Gao in April 2019.
- TDD deployed in Bamako: WIMAX B2B swap in progress
- Energy Kit: 2364 sold kits
- Data redesign (abundance).
- The MTR goes from 15.8 XOF in Q1 2018 to 7 XOF in 2019 for voice; draft revision of the MTR with the introduction of asymmetry
- Maintaining a good level of Voice and Data QoS through sustained broadband investments (4G, 4G +, FO ...)
- Outsourcing of site energy and good management of core and mobile access outsourcing
- Digitalization of the customer relationship and internal processes

Renewal of 2G / 3G license including 4G. Consolidation of strong commercial positions. Good growth in turnover and Ebitda. Development of the Orange Money business. Continued performance on the top-up revenue. Extension network coverage of the territory.

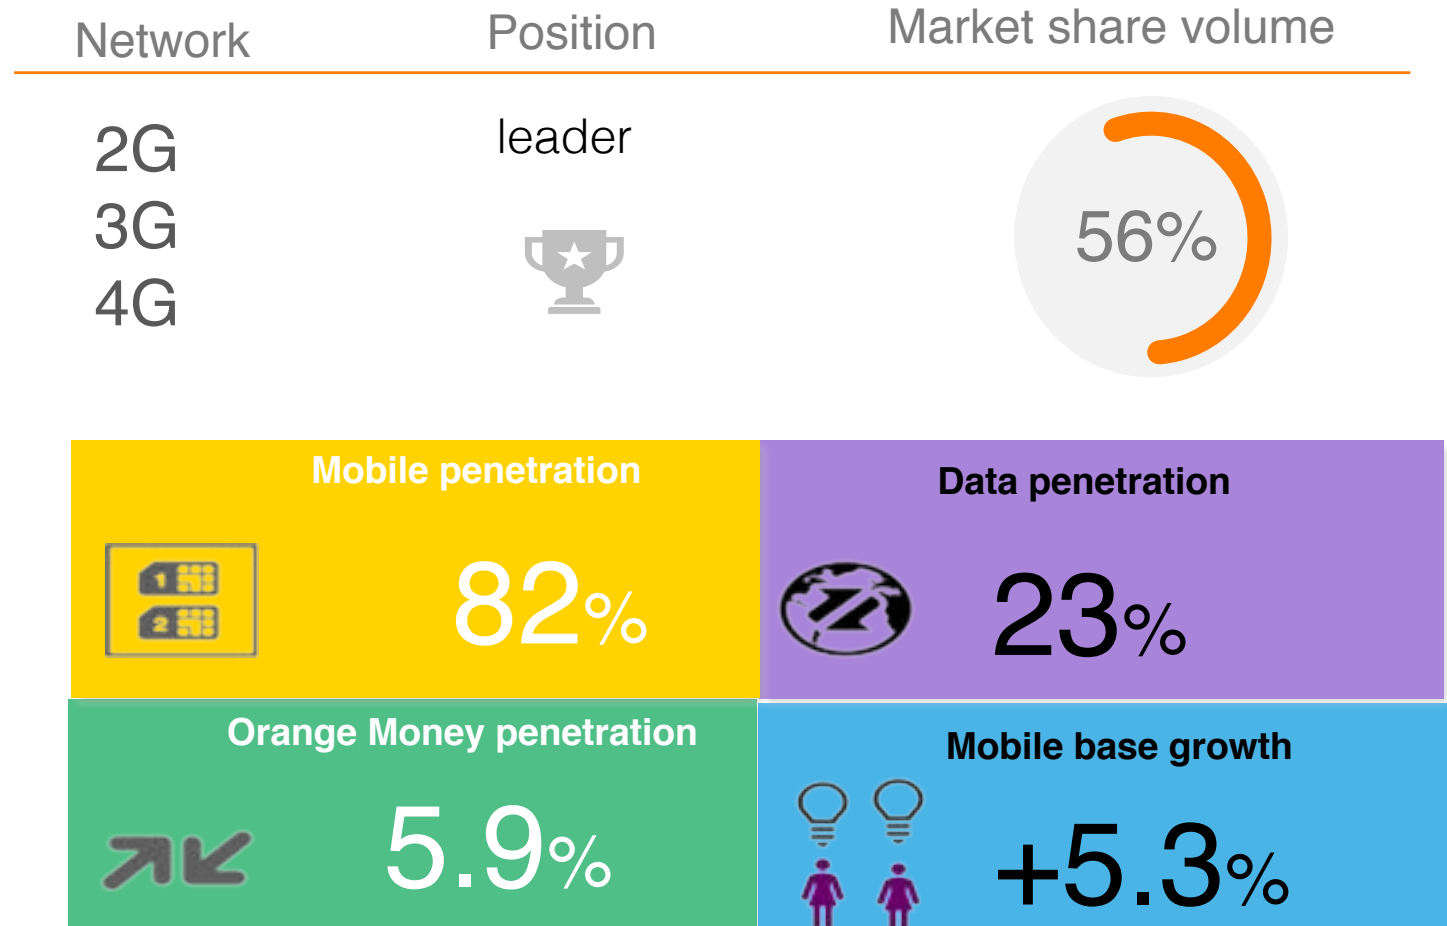

- Signature of the license agreement: 2G / 3G license renewal and 4G license granted; payment of the first tranche
- Strong operational and financial performance boosted by GNF / EURO appreciation
- Commercial launch of 4G in Conakry
- Deployment of the 3rd carrier
- Tightening customer identification requirements
- Launch of merchant payment by QR code, payment of insurance policy via Orange Money with insurance partner
- Launch of the Digital Driver (CBM)
- Opening of a new agency in the region (Mamou)
- Signature of partnership contract between Orange Money and world remit
- Official reception of the GSMA certificate

Consolidation of strong commercial positions in volume and value. Continued deployment 4G coverage and Orange Money penetration. Guinea Bissau connection to the ACE submarine cable. Financial results impacted by the economic gloom. A fiscal and regulatory environment always difficult.

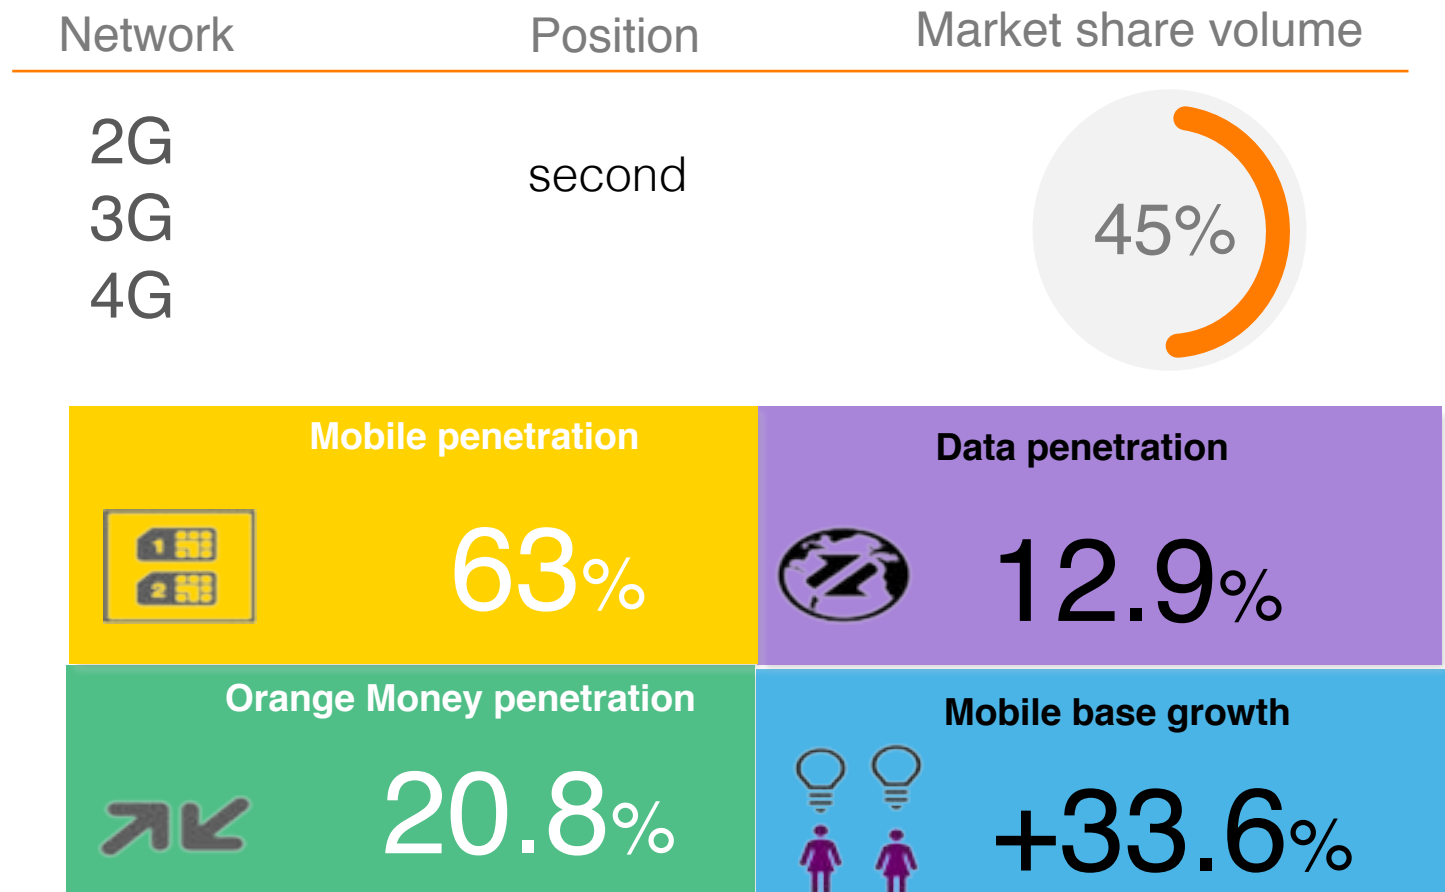

- Political situation always precarious
- Connectivity: Guinea Bissau has been connected to ACE submarine cable segment 6 via the Dakar Landing Station.
- The major network projects are engaged (SWAP IN, Backbone, deployment 2019, SDM, ACE cable, ...)
- Launch merchant payment with service stations (fuel)
- Launch of M-WOMEN with stakeholder listening meeting

Improved relationship with the regulator. Official launch of 4G with nearly 12,000 users already. Good growth in financial results based on good commercial performance and good control of indirect costs.

- Launch 4G in March 2019
- Removal of the \$ 0.02 tax on incoming national calls off net; MTR downward revision project (October 2019)
- Good performance of operational KPIs that are growing in YoY thanks to the good commercial performance.
- The 4G customer base has now reached 11.7 K customers.
- Launch of the first coding school in Sierra Leone in partnership with the Science, Technology and Innovation Department.
- Signature of new roaming agreements with Senegal, Benin, Guinea Bissau, Luxembourg and Nigeria
- Continued deterioration of the value of the SLL against foreign currencies since December 18th of -4% USD and -2.2% Euro.
- USD and Euro exchange rates for the month of June are below the prospect of -2.0% and -6.4% respectively.

Contrasting evolution of ARPUs on our different geographies

Growth in Senegal, Mali and Sierra Leone driven by an increase in revenues around growth drivers (Data Mobiles and Orange Money)

Decrease of Arpus in Guinea and Bissau following a shift in subscriber bases in lower-income market segments and the effects of multi-sim growth.

Strong growth in revenue and Group-wide data usage driven by ultra-fast broadband.  
Subscribers evolution impacted by the change of calculation rules in Sierra Leone (taken into account only active user).

- Mobile voice, SMS et VAS
- Others
- Fixed line
- International Wholesale

2018 Weight by activity

2019 Weight by activity

Contribution to turnover growth

Strengthening the contribution of growth drivers to revenue (revenue growth of more than 97% by Data Mobile and Orange Money) offsetting the decline in international revenues..

CAPEX	H1 2017	H1 2018	H1 2019	H1 2018/ H1 2017	H1 2019/ H1 2018
Network	64.5	56.1	83.1	-12.9%	+48.1%
Off network	8.6	8.2	15.2	-4.2%	+85.4%
<b>Total</b>	<b>73.1</b>	<b>64.4</b>	<b>98.3</b>	<b>-12%</b>	<b>52.6%</b>
<b>CAPEX rating</b>	<b>15.1%</b>	<b>12.7%</b>	<b>18.1%</b>	<b>-2.4 pts</b>	<b>+5.4 pts</b>

CAPEX of 98.3 billion XOF mainly on the access network (3G / 4G), transmission and core network. This advance is mainly driven by Mali, Guinea and Senegal.

# Stock price

Evolution of the share price (-26% / June 2018) is in line with the BRVM and international stock market situation in the wake of the recovery of the US markets.  
 The BRVM10 index fell by 26% and the BRVM index by 27% compared to June 2018.

# #5 PERSPECTIVES

sonatel

- The group continues to strengthen the contribution of growth drivers, particularly mobile data and mobile financial services, which generate more than 95% of total revenue growth.
- The securing of our core revenues will have to go through the acceleration of the penetration of package offers and the widening of the corridors on the wholesale. However, regulatory measures (supervision of bonus promotions in Senegal, constraints of powerful operator in Senegal, asymmetry in Mali) if they are confirmed, will have an impact on our results to monitor well.
- The group will pursue the development of very high speed Internet access through all fixed and mobile technologies and will participate in the digital transformation and reinforcement of our contribution to the emergence of the digital economy of our countries of presence.
- The group will continue to improve the direct margin thanks to the combined effect of the increase in retail revenues (preponderance of data and Orange Money revenues), lower interconnection costs and a controlled expenses in payout to distributors.
- The group reaffirms its ambition to offer its customers an incomparable experience, with a technical and commercial quality QoS recognized (NPS leadership)

# Appendices

### **Attestation de sincérité des commissaires aux comptes sur les états financiers consolidés**

**Etats financiers consolidés  
Période du 1er janvier au 30 juin 2019**

En exécution de la mission qui nous a été confiée par votre Assemblée générale du 14 avril 2016 et en application des articles 849 à 852 de l'Acte Uniforme de l'OILADA relatif au droit des sociétés commerciales et du groupement d'intérêt économique, nous avons procédé à :

- un examen limité des comptes semestriels consolidés du groupe SONATEL, et
- la vérification des informations données dans le rapport d'activité semestriel et dans le tableau d'activités et de résultat, établis sous forme consolidée.

Le rapport d'activité semestriel et le tableau d'activités et de résultat sous forme consolidée ont été établis par la direction de la SONATEL. Il nous appartient, sur la base de notre examen limité, d'exprimer notre conclusion sur les informations données dans le rapport d'activité semestriel et le tableau d'activités et de résultat sous forme consolidée.

#### **Etendue de l'examen limité**

Nous avons effectué notre examen limité selon la norme sénégalaise d'examen limité, conforme à la norme internationale correspondante. Un examen limité consiste à obtenir les informations estimées nécessaires, principalement auprès des personnes responsables des aspects comptables et financiers, et à mettre en œuvre des procédures analytiques ainsi que toute autre procédure appropriée. Un examen de cette nature ne comprend pas tous les contrôles propres à un audit effectué selon les normes professionnelles applicables au Sénégal. Il ne permet donc pas d'obtenir l'assurance d'avoir identifié tous les points significatifs qui auraient pu l'être dans le cadre d'un audit et, de ce fait, nous n'exprimons pas une opinion d'audit.

## Conclusion

Sur la base de notre examen limité, nous n'avons pas relevé d'anomalie significative de nature à remettre en cause la sincérité des informations données dans le rapport d'activité semestriel et dans le tableau d'activités et de résultat de la SONATEL, établis sous forme consolidée.

Dakar, le 22 juillet 2019
